

Equipment Loan: Tip Sheet

Our rental equipment is designed to allow you to get outside and access all the wonderful opportunities this area has to offer. In order to ensure that our equipment is functional for the next user and years to come, please be sure to take the necessary steps to keep it clean.

If you are using any piece of Lifetime Networks' equipment near water, and especially on the beach or near the ocean, please:

- Spray it down with clean water after usage. Remove all dirt, sand and mud.
- Thoroughly wipe down all parts of the piece with a clean, dry cloth. ***Pieces that are left to air dry will rust over time. Salt water is corrosive!
- Remove cushions or padding and ensure they have dried out.
- You may use a gentle soap, but nothing more, including any and all chemical solvents.
- When not in use, store equipment in a covered, locked/secure and dry location.
- Please take special care to return ALL pins, rings, and small external pieces.
