

Equipment Loan Inventory

The following is a list of the pieces of equipment in Lifetime Networks' possession available to loan. Availability will vary due to the time of year.

Do not forget to consider transportation for the equipment; certain pieces can be large or heavy and may not fit in average sized vehicles.

OTHER LOAN SERVICES

There are other Equipment Loan Services in the area. Below are two which you may contact as well:

- **Canadian Red Cross Health Equipment Loan Program (HELP):** HELP is a community-based service lending a variety of health equipment to assist people coping with illness, injury or end-of-life care at home. For more information, contact Victoria's regional office at 250.382.2043 or visit <http://www.redcross.ca/how-we-help/community-health-services-in-canada/bc-health-equipment-loan-program>.
- **Queen Alexandra's Center for Children's Health Equipment Loan Library:** QA loans specialized equipment and therapy toys to families through the Child Youth and Family Rehabilitation Service. Loans can be initiated through a referral from your Queen Alexandra physiotherapist or consultant. For more information, contact 250.519.6795 or visit http://www.viha.ca/cyf_rehab/therapy/school_age/Equipment+Loan.htm.

BIKES

Name	Varna II Handcycle
Description	This trike is great for a rider who is looking for speed. The rider is seated in a semi-recumbent position for comfort and more efficient power application.
Features	The Varna II is highly maneuverable, giving it great advantage in crowded conditions.
Specs	The Cycle is adjustable for individuals 4'5" to 6'5" in height and weights of up to 250 lbs.
Notes	Weighs 39 lbs. This handcycle involves the use of the abdominal muscles; riders should have the ability to use these muscles if choosing the Varna II.
Purchase Price	\$3,450

Name	Varna Liberator
Description	The Liberator is the handcycle of choice for those looking to increase their upper body strength; ideal for people with leg/spine injuries or impairments.
Features	Features an upright hard seat and large tires.
Specs	Weighs 36b lbs.
Notes	Suitable for children and adults with full arm and upper trunk mobility. Not suitable for steep or hilly terrain.
Purchase Price	\$2,850

Name	Varna Hybrid Tandem
Description	This tandem is great for commuting or leisure riding. Driven by leg and hand power, it provides an interactive cycling experience for two to share.
Features	The front end cyclist pedals, steers and leans independently like a bicycle, while the rear is powered by hand pedals and does not lean.
Specs	It is quite heavy; does not come apart or fold.
Purchase Price	\$7,700

Name	Wheelchair Bike Trailer
Description	Capable of holding a standard manual wheelchair, this trailer allows an individual to be towed along bikeable surfaces.
Features	Features safety rails and straps for tying down the wheelchair.
Specs	Ramp allows wheelchair user to roll onto the trailer.
Purchase Price	Custom Piece.

Name	Sun EZ-3 Recumbent Tricycle
Description	This trike is very comfortable with a large cushy seat. This is good for someone who may pedal, but does not have the strength or co-ordination for a traditional bicycle.
Features	Upright control handles in the back allows a walking or running companion to control braking.
Specs	This is a large piece; transportation considerations.
Notes	The piece weighs 67 lbs. The companion should have the ability to keep up with the rider.
Purchase Price	\$1,700

All-Terrain Wheelchairs and Joggers

Name	Landez All-Terrain Beach Chair
Description	The Landeez was designed to easily maneuver over difficult terrain such as sand, gravel, snow and mud. Its soft pneumatic tires absorb almost all road shocks for a remarkably comfortable ride.
Features	Adjustable leg rest; front casters allow for easy turns and 19" seat height for easy and safe transfer.
Specs	
Notes	The Landeez can be disassembled for easy transportation; folding frame with removable parts make it simple to take apart and put back together. Pieces weighs 37 lbs.
Purchase Price	\$7,500

Name	Hippocampe All-Terrain (Child)
Description	The all-terrain offers individuals accessibility to difficult terrains impossible to reach in a standard wheelchair: beach, sand, swimming area, hiking trails, snow, mountain.
Features	Towed, pushed or self-propelled, the Hippocampe chair offers autonomy to its user.
Specs	This piece is suitable for a small child.
Notes	Its small size, fold-down backrests, removable push bar and wheels make it easily transportable and convenient to store in its transport bag. Weighs 37.5 lbs.
Purchase Price	\$ 6,400

Name	All-Terrain Wheelchair
Description	This all-terrain wheelchair was custom designed to allow its user the ability to navigate difficult terrain.
Features	Features include a comfortable seat and removable footrest.
Specs	This piece suitable for adults, youth and children.
Notes	As this wheelchair does not collapse, a vehicle with adequate space will be needed to accommodate its size.
Purchase Price	Custom Piece

Name	Freedom All-Terrain Jogger
Description	This all-terrain jogger has been designed to meet the demands of active families. It is lightweight and durable. Great for children and smaller adults with limited mobility.
Features	This Jogger features quick-release which easily folds down flat and has removable wheels. Possesses a 5 point harness and reclining seat.
Specs	Weighs 19.7 lbs. Capable of supporting a child or adult up to 150 lbs.
Notes	This jogger does not come with a front swivel wheel; quick maneuverability is limited. Great for long walks outdoors, beach, hills and light hikes.
Purchase Price	\$ 1,200

Name	Axiom Pushchair
Description	Designed for use as an indoor or outdoor mobility system, this all-terrain pushchair easily glides through grass, gravel, over curbs and sand.
Features	Comes with a traditional fixed front wheel, lightweight frame and comfortable seating.
Specs	Weighs 33 lbs, weight capacity of 150 lbs.
Notes	This jogger does not come with a front swivel wheel; quick maneuverability is limited. Great for long walks outdoors, beach, hills and light hikes.
Purchase Price	\$ 1,200

TrailRiders

Name	Black Diamond
Description	Affectionately described as a cross between a wheelbarrow and a rickshaw, the TrailRider rolls smoothly over all terrain.
Features	Quick release pins make for adjustable seating and allows folding for easy transportation.
Spec	Weighs 23kg and can accommodate individuals over 4ft (cushion inserts can make it more comfortable for individuals under 5ft).
Notes	Requires the use of several sherpas to operate. Transportation consideration as it is a large piece.
Purchase Price	\$ 7,500

Name	Green Monster
Description	Affectionately described as a cross between a wheelbarrow and a rickshaw, the TrailRider rolls smoothly over all terrain.
Spec	Weighs 23kg and can accommodate individuals over 4ft (cushion inserts can make it more comfortable for individuals under 5ft).
Notes	Requires the use of several sherpas to operate. Transportation consideration as it is a large piece.
Purchase Price	\$ 7,500

Kids' Equipment

Name	Kids' Tricycle
Description	A tricycle suitable for a small child capable of holding themselves upright. Handlebars tilt forward/backward to adjust to the height/armspan of the child
Spec	Lightweight, hand breaks, rear basket for storage while biking
Purchase Price	Unknown

Name	Kids' Reclining Pedalbike
Description	Kids' reclining bike, adapted to steer with arms while pedaling with feet. Hand brake on right side. Suitable for persons under 4ft
Spec	About 8kgs, does not disassemble
Notes	Requires upper body strength/mobility to steer
	Custom Piece
